GRAPHIC
DESIGN
PRICES

Sofisticated and demanding design refers to expertise. Higher and higher graphical standard is the need nowadays that is not a coincidence: the brand is the first interface the customer meets with. If the brand is clear, it raises trust and the customers commit themselves immediately. Our goal at ForestillDesign is exactly this: to reflect your brand as accurately as possible. Nevertheless remain loyal to your own business all the time.

Design process consists of 3 steps.

1. stage - **MEETING THE PROJECT**

In the first steps of the process we get to know the needs and ideas. Favourite colours and motifs help the designer to create a whole idea about the project. We ask the materials in this step as well.

For printing material we require:

- texts in editable files (doc etc.) -
- images with the highest quality possible (best tif and 300 dpi) -
- logos in vectorgraphics -

2. stage - **DESIGN**

First sketches and ideas are created in this stage, all based on the material provided in the first phase. Then we make visuals and more developed designs. Space is given for modifications and clarification of the guidelines.

3. stage - **HANDLING**

In the final step we provide the finished graphical material ready to upload for your web or to print it out. Depending on the need, we can also ask price offers from printers we are cooperating with.
