ILLUSTRATION
PRICES

Illustration is a visual representation of everything that someone has written down or thought out. Its aim is to help visualisation, education and sometimes simply delight the audience.

The creative process consists of 3 phases.

1. stage - MEETING THE PROJECT

In the first steps of the process we get to know the needs and ideas. You can order an existing work and unique illustration as well. If you order a unique work, all details, ideas and exact concepts should be cleared in this very first stage. In case the illustration will decorate a book, details are required from the printer services. Painting on textile is also close to us, so do not hesitate to contact us for offers.

2. stage - DESIGN

First sketches and ideas are created in this stage, all based on the material and concepts provided in the first phase. We make sketches and first drawings. Space is provided for modifications and clarification of the guidelines. At the end of this phase the works are finished.

3. stage - HANDLING

During the last stage, finished printable or uploadable material is provided. In case of need, we can also ask price offers from printers we are cooperating with.

Since illustration is a broader category than graphic design, the working process and pricing is more complicated. Pricing is based on the following starting points.

- digital / handmade
- size
- black and white / colour
- full page / partial illustration
- interior illustration / cover
- requires additional digital editing

We meet all the mentioned questions in the very first stage of the process, however we serve with some examples of the possible styles as follows:
